Subject: ANOTHER THOUGHT - AND A COPY OF THE ORD COMMENTS FROM 2015 ON THE PREVIOUS DRAFT - glyphosate review check in for ORD folks

In talking with Ted just now, it seems prudent to point out some thoughts about real time SharePoint use:

- If you enter your comments directly into SharePoint and then want to change them, someone may have already read the previous version.
- Sharing your comments with each other (and me and Jackie if you want ☺) before re-loading them into SharePoint might be a good idea because you can see each other is saying and whether other ideas might influence your comments (kind of like a peer review panel getting together to discuss their comments).
- Just a reminder that the comments are yours though....if there is disagreement, then that just shows there is an issue to embrace.

I attached ORD's comments from the previous draft that Jeff Ross mentioned the other day. I thought had these but maybe not.

Subject: UPDATE AND NEXT STEPS - glyphosate review check in for ORD folks

Hi everyone:

First of all, thanks for the good discussion earlier this week.

Note: I have added Vince and Gina to this email chain (and on Hines and Barb) because it would be great for more folks to participate around the Aug 5 time period (see schedule below):

Ex. 5 - Deliberative Process

Jackie and I talked to OPP folks early yesterday which then prompted them to talk to their upper management to further define the task and how to proceed – see notes below. They are committed to having the best product possible and recognized our timing issues, etc.

Yesterday afternoon I also worked out the schedule below with Anna.

Please call me or Jackie anytime if you have any questions at all.
